## **Notice:**

### **Patent Sale: 7,007,621 (3/7/06) Watercraft Brake System- PWC**

The Patent is for a Watercraft Braking System, with specific reference to Personnel Watercraft. This Patent solution addresses a very serious issue in recreational boating. We believe that this technology provides the owner with a competitive advantage and the ability to offer their customers a PWC that is safer and allows the operator to avoid serious collisions that can cause personnel harm and costly damage to their watercraft. Patent protection in the USA and Canada.

PWC Industries is a design and manufacturing firm that provides innovative solutions to the watercraft industry. Their product line includes the Safety Alert System and Full Wave Audio as well as several other unique Patents that provide industry specific solutions. We are located in Florida and have been in existence since March of 2004. You can review our web site for further information on our company and products [www.watercraftinnovations.com](http://www.watercraftinnovations.com).

A prototype unit, as well as additional information is available for your viewing and / or trial at our Fort Myers Florida facility.

We truly believe that with the recent introduction of a PWC braking system into the industry that this becomes a very opportune time for someone to take a lead position in the Safety category for PWC with an industry leading superior solution. This solution provides progressive braking and still allows throttle and steering capabilities. This design technology will provide a competitive advantage and help your consumers stay safe.
